

SCHOLARSHIP APPLICATION

Name: _____

Address: _____

Email: _____

Phone: _____ Alternate Phone: _____

The MidContinent GPA Midstream provides scholarships each year to help support students of local universities that are sincerely interested in the Midstream Industry. These scholarships are granted to further potential and possibility for the future of gas processing. Funding each scholarship is made possible by chapter sponsorships, donations and fundraisers, such as the annual golf tournament and sporting clay events. The scholarship program is aimed at juniors and seniors within the engineering departments at our regional universities, including Oklahoma State University Institute of Technology.

Annually, the MCGPA may disperse up to \$10,000 in scholarships, which will be allocated as directed by the Scholarship Committee, providing candidates are available, meet the criteria, and sufficient funding is available. Interested candidates, or those wanting to nominate a candidate, can contact members of the Scholarship Committee.

Requirements for Eligible Applicants are shown in black lettering below. Please indicate your response on the appropriate line. Application deadline is **March 31, 2020**.

1. The student is or will be attending an ABET accredited university.

List your ABET Accredited university: _____

2. The student is pursuing a degree in a technical discipline.

List your technical discipline: _____

3. The student has a high likelihood of working in the midstream industry upon graduation.

List the midstream company who will potentially employ you:

Please submit your **APPLICATION** and **TRANSCRIPT** to one of the following Scholarship Committee Members by **March 31, 2020**.
